

BVB TS Professional

Now available

The alternative, ready to use peat moss for the professionals!

Content of the bale loose	: 250L (225L EN/EN 12580)
Compression rate	: 2,2
Organic matter of the dry substance	: 95%
Electrical Conductivity (EC)	: BVB-TS-1 : 0,65 mS/cm : BVB-TS-2 : 1,25 mS/cm
Starter Fertiliser PG mix 12/14/24	: BVB-TS-1 : 0,8 kg/m ³ : BVB-TS-2 : 1,5 kg/m ³

Starter Fertiliser PG mix (YARA), is a high quality, all in one powdered compound fertilizer. Perfectly to provide the plant with a balanced supply of the essential major nutrients. Together with a complete range of trace elements, it ensures optimum development and healthy growth.

To optimise the pH, the peat moss is being supplemented with a magnesium containing lime. This in order to supply the essential nutrients calcium and magnesium and to correct the pH of the peat to the desired level.

pH (H₂O) : 5-6

All products contain a wetting agent to ensure a rapid wetting and re-wetting as well to have a uniform water penetration.

Aan de **basis**
van de *groei*.

Product: 100% natural first class white peat moss from selected peat-bogs.

- Free from wood, sand, seeds of weeds and radioactivity.
- Before leaving the premises, all materials will be thoroughly checked in our own laboratory.
